### STEAMER FOUNDERS.

### DOUBLE COLLISION IN DENSE FOG.

### SIXTEEN LIVES LOST.

LONDON, October 9.

The Laird liner "Rowan" from Glasgow to Dublin with a crew of thirty-seven and fifty-six passengers sank off the west coast of Scotland after a double collision. Twenty-four of the crew and 53 of the passengers were saved. Two of the latter subsequently died. The disaster occurred in a dense fog at the entrance to the Firth of Clyde. The "Rowan" was badly damaged first in the collision with an American vessel. She was released for help. The "Clan Malcolm" was among the ships which gave response. The "Rowan" collided with her and then foundered.

### FLUCTUATING EXCHANGES.

### WORLD-WIDE SOLIDARITY NECESSARY.

ST. LAZARE, October 9.

M. Briand, who is accompanied by six Cabinet ministers, in a speech, stated that the French Government had confidence in the present German Government. Referring to the problem of fluctuating exchanges, he dwelt on the paradoxical situation whereby Germany benefited from the economic competition throughout the world while peoples whose rate exchange was highest found even in their wealth causes for impoverishment. He hoped that the great financiers of the world would recognise the necessity of settling the situation which would never find complete equilibrium unless world-wide solidarity was brought to bear.

## "SALVAGING CIVILISATION."

### INTERNATIONAL PROBLEMS.

#### DR. HODGKIN'S VIEWS.

Presided over by H.E. The Governor, a large gathering heard Dr. H. T. Hodgkin speak in the Theatre Royal last night on the subject of "The Salvaging of Civilisation." With His Excellency on the platform were the Bishop of Victoria and the Rev. J. Kirk Maconachie and there were many prominent residents among the audience.

After the meeting had been opened with the singing of "Fight the Good Fight" and the Lord's Prayer had been said, Dr. Hodgkin spoke for an hour on the application of Christian principles to the International Problem.

He said he thought that civilisation could not persist unless the principles of the Sermon on the Mount were applied to international questions. He did not condemn the League of Nations; on the contrary, he indicated that he expected great things from its operations, but he felt that "a something more was required—a Christian spirit applied to public affairs." There were three international dangers to be apprehended: exploitation of weaker or child races by the stronger ones; division into national or class groups; and the danger of cynicism, of simply concluding that no real progress could be made in human affairs. There might be a tendency to feel that, after all, the League of Nations could not be expected to do very much. "We have got to expect a great deal from the League of Nations," said Dr. Hodgkin. "We want a revival of religion that will not only make us all men are brothers, but will make us believe it so that our life throbs with that conviction and we cannot look with superiority or scorn on any men whatever they are, of whatever race, or creed or class; we want this great religious spirit to sweep through our life so that we may begin to have a new faith in the future. It must be a religion that liberates men's minds and invites them to face the great facts of the universe—a religion, if it is to be any good at all, must be a religion that will show us not only how to forgive our brother next door, but how to do that far more difficult thing, to forgive the nation that has wronged us. We must learn how to take that further step if civilisation is to be saved. Otherwise we shall go on plunging the world into war after war and see civilisation come down like a pack of cards about our ears."

Dr. Hodgkin concluded with this quotation, addressed to the young men of Europe and of the world: "Believe in the future, for none but you can. Believe in the impossible; it waits the help of your hands to become the inevitable."—(Loud applause.)

#### THE GOVERNOR'S COMMENTS.

H.E. the Governor expressed the thanks of the audience to Dr. Hodgkin for his interesting and eloquent address. Dr. Hodgkin had pointed out, he thought, the one remedy for the present deplorable states of civilisation—the cultivation of a spirit of unity, sympathy and love between nations as well as individuals. It must be confessed that the results of the last year had not shown that the work of the League of Nations was likely to have any very immediate effect, at present, in forwarding the cause of the reconstruction of the civilisation so greatly damaged by the war. The explanation might be that the League had not sufficient driving power; it had been represented by too many as the toy of statesmen and diplomats. If the League of Nations was to be the success that everybody desires, it must have the driving power of the peoples of the countries behind it. In order that it might become a living thing it was necessary that everyone should put aside the hard feelings of the past and cultivate a spirit of unity and sympathy with other nations. If that spirit could be extended it would not despair of seeing the League of Nations do great work towards the saving of civilisation.

The meeting concluded with the benediction, pronounced by the Bishop of Victoria.

been affected by the renewed controversy aroused by Lord Lovelace's "Artists."

The Museum also possesses the complete text of Oscar Wilde's "De Profundis," which was the subject of a lawsuit not very long ago. In this instance also the trustees refused to allow any use to be made of the manuscript, which is much longer than the published book.

The usual reason for keeping such documents secret for a fixed period is that they involve the reputation of people still living. In the case of the diplomatic correspondence of Sir Austen Layard, one-time British Ambassador at Constantinople, secrecy is being maintained until the Foreign Office gives permission for it to be opened to inspection.

## PORK AND BEANS.

GREAT AGGREGATE OF  
WEALTH SUED.

At last the Armours, the Swifts, the Rockefellers, the Schwabs and other malefactors of great wealth are to get what is coming to them. At least they will get it if the jury agrees with the contention of a lady in St. Louis who alleges that she is the inventor of pork and beans or of some variant of that soul-comforting combination, but that these wretched magnates maliciously, wickedly and unlawfully conspired to shut her out of her market. In fact, as alleged, in order to accomplish their wicked purpose, those shameless persons did not hesitate to organize a trust, says the San Francisco Chronicle.

In the opinion of this lady it will take not a cent less than \$120,000,000 to make her good and she prays for judgment to that amount. And there is one thing to be said in favour of the lady's sound judgment, and that is the wisdom she displayed in picking defendants. If she gets the judgment she can collect the money.

The atrocity of the alleged offence seems greater when, as the lady alleges, she was moved to invent her invention by sympathy with the soldiers who, during the nineteenth century, were engaged in the Spanish war and were being fed on embalmed beef. To relieve their sufferings she invented this pork and beans combination, but the trust prevented her from getting away with the contract. In such a case as that we should say that \$120,000,000 was too little to ask for. She should have claimed punitive in addition to actual damages.

A MOTHER OF FIFTEEN  
CHILDREN.

Yet Feels Young At Seventy.  
Mrs. Charlotte M. Mather is the proud mother of fifteen children. Her age is seventy, she looks sixty and says she feels younger than she looks. How she attained to ripe old age so gracefully Mrs. Mather explained not long ago at her home, 11a Beacon Street, Somerville, Mass. This charming old American lady has not always had the good health she now enjoys as will be seen. She said:

"Some time ago I had a severe attack of rheumatism. Instead of gradually regaining my strength after the disease left, it seemed to stand still. I began to think that I should always be a burden on those about me. I had severe headaches and attacks of extreme weakness when it was impossible for me to move. My appetite was poor and there was a burning sensation in my stomach after eating. Sometimes this was followed by a piercing pain."

"I was sure that I had a good many years of health before me and so took the prescribed medicines fail to help me so long as I did. Dr. William Williams, of Boston, I had heard of the remedy from friends. The first bottle helped me so much that I continued taking the pills until I had completely recovered my health. I no longer have headaches, my appetite is good and the stabbing and burning pains have left me. I feel now that I shall live almost as long as my grandfather, who was a hundred years old when he died. I cannot speak too highly of Dr. Williams' pink pills."

Write to Dr. Williams,  
Williams Co., 98 Seachester Road, Shambles,  
for the free booklet "Building Up  
the Blood." Your own druggist sells  
Dr. Williams' pink pills or they will be

paid.

## A FEW FLEA BITES.

The vacation of a little office boy was employed at the Bank of England and was less enjoyed by him than it should have been, owing to the fact that he could not help worrying a little about how that institution was getting along without him. He knew that the Bank performed functions most important to the country. Laugh, if you must; but when you are done laughing, consider if that office boy is not generally.

glimpse the truth, perhaps (as Robert Burns did) give it lasting expression, and then as quickly forgotten, or by their behaviour seem to. This of itself should be evidence that we are feeble creatures than we think we are, as incapable of retaining truth as a basket water. How to see, quick to forget, fickle in worship, inconsistent in application, burnt children who never learn to dread the fire. We contemplate Architecture, as an art and as a science, and we compare it with the nests of birds, and we belaud our greatness. Yet it is only an inevitable development of so many repeated efforts to shelter our frailty from wind and wet. We contemplate Philosophy, and praise ourselves, yet it is only a thin smoke that rises from the friction caused by our long twiddlings with consciousness. We remark our Napoleons, and forget that their natural blood brothers are the pugnacious small fowls who happen to be cocks of their walks. O, was some Power the giftie give us? To see ourselves as the gods must see us. It would from our chid blunder free us—our least logical notion that we are, by the trick of speech and its illusion of thought, outside of and above the order mammalia. After all, it may be our ignorance that makes our idea of our superiority possible. We are ignorant of the language of the Heavens, and consequently know not of the existence of the philosophy of our parasites, much less its nature. In these days, when it is held a symptom of intellect to believe in the Fourth Dimension, in heat light, and many other really unknowable things, it should not be deemed unthinkable or crazy to postulate that Pulex Irritans has his or her own cosmology, which recognizes a beneficent design in nature, catering for insect requirements, and even condescends to bestow upon the human species some such honourable title as that we give to the dog and the horse. The Friend of Man—the Friend of Flea-dom. There may be a flea morality, and reverend fleas of rival denominations to preach it; there may be flea professors, so full of flea erudition as to confirm the flea tradition that fleas are the lords of creation; and, naturally, in such case, there would be a flea deity responsible for all. It is at least as feasible as the Fourth Dimension, and no more incomprehensible or difficult to believe than some of the mysteries we are instructed to believe. We may not accept it; nor can you deny it. Assume it so, you then confront two rival claims, and a hideous doubt. Who has the truth? Who is right? The learned fleas or we?

## HEART TO HEART.

As one human being to others, says "Adversarius," manifesting the same human desires and weaknesses, reminding them that just as a man in a suitcase talking through his nose is still a bicker, so a man talking through the conventional dignity of type may be a common chatterbox and gas-hag, that is how I appeal to them, and why they tolerate me so generously. I know it. To be simple and natural and human—there's no secret in that—but how efficacious it is. Not only in selling the paper, but in bringing their true selves to the surface. Real good sorts, they are, when they feel they can afford to be natural, to drop the mask, to unbuckle and unbelt. The cocktails help, of course. Ever watch the process? To begin with, the tiniest suspicion of constraint, of being guarded. A long—time—no—have—see feeling, with its wherever—shall—we begin to connect the old threads problem. Good will to be sure. Never doubt that. Good will, but with antennae out, guessing, surmising, shy. The first cocktail has the effect of taking off the hat and gloves, of lolling, of bonhomie, and the atmosphere warms up, as it did when Mother used to say "draw your chair up," and polish the fire, when you came in of a cold, raw night. The third one makes you want to kick yourself for neglecting these charming fellows so long. Such noble characters, such sterling souls, such loving, decent hearts! The fourth concoction by Bessie—but about here, of course, you have lost count. Was it really the fourth, or the fifth? You pucker your brows, and think hard. No use. Then you smooth them, and smile, and murmur that anyway it does not matter.

Thus the old reprobate, dropping in upon us on Saturday, just as we were going to press. It was not difficult to guess where he had been. Diphtheria—HOW IT MAY BE AVOIDED.

Diphtheria is usually contracted when the child has a cold. The cold prepares the child's system for the reception and development of the diphtheria germs. When there are a number of diphtheria in the neighborhood, children that have colds should be kept at home and off the street until recovered. Girls from Chamberlain's Convent Kennedy and May will be at the Chamberlain's home to clean out the culture beds, which form in a child's throat when it has a cold, and minimize the risk of contracting diphtheria. For sale by all Chemists and Stores.

The "Raleigh"—a sister ship of the "Hawkins," flagship of the China Station—has arrived on the North America and West Indies, and taken up the duties of flagship there. This Station includes the Pacific Oceans and as far over the Pacific as the China Station goes.

Lieutenant-Commander J. A. Douglas-Hamilton, who has been appointed to the "Hawkins" flagship of the China Station, joined the Naval service in 1909, and reached his present rank in August of last year. He was latterly serving on the "Fischaad" for P. and R. T. duties.

Charged before Magistrate Lindell this morning with the unlawful possession on board the s.s. "Orlea," of 300 rounds of revolver ammunition, a Chinese said that he arrived from America by the s.s. "Empress of Russia." He was returning to his native village and did not know local regulations. A fine of \$75 was imposed and the ammunition confiscated.

Messrs. Cammell, Laird, at Birkenhead, have launched the "London Maru," the largest vessel built for Japan for some years past. Her displacement is 15,500 tons, and she is the finest ship of that class owned by the Japanese. The vessel will probably operate on the regular Japanese European service of the Osaka Shosen Kaisha, for whom she has been built.

Ichang is threatened with a rice famine due to the interruption of facilities for transportation which was in turn due to military activities, says a telegram to the Government from the Ichang Chamber of Commerce the other day. The Government is asked for permission for the Chamber to import food supplies for the people and that the shipments be free of taxation.

A local light-house telegraphist was arrested on Saturday for being drunk and incapable in a public chair. This morning when his case was called, he did not appear. Magistrate Lindell enquired if the man had been sobering, but shore leave. The police replied in the affirmative, and said that there were no special circumstances in the case. His bail of \$3 was ordered to be estreated.

## SATURDAY'S GYMKHANA.

## SOME SMALL FIELDS.

## GOOD DAY FOR FAVOURITES.

Small fields and the agreeable tendency displayed by favourites to "come home" in most of the races were features that marked the resumption of Gymkhana racing at Happy Valley on Saturday. There was a big crowd which included H. E. the Governor, and the weather and the Wiles band both helped very much towards making the outing a very pleasant one indeed.

It was the three-quarter length race that provided the best finish of the day. There were only four starters and Lighting, the favourite, with Mr. Bell-Irving up, looked a certain winner until Mr. Doyle on Sprout challenged him within a stone's throw of the winning post. Stirrup to stirrup, they fought it out over the last few yards of the distance until Mr. Doyle with a final effort squeezed home by a neck.

There were only three starters for the big race, the Gymkhana Stakes, and they were Scampendale (Mr. Bell-Irving), Bolshevik (Mr. Doyle) and Pawnshop (Mr. Soares). Pawnshop, the least fancied of the trio, set the pace from the start and, leading all the way, won by a length. There was a stirring duel for place honours between the other two and eventually Scampendale ran into second place a length and a half ahead of his rival.

The public put its money on The American for the last race, the mile and a quarter, and Mr. Seth did not disappoint them. Well to the fore all the way round he shot out from the pack at the last bend and romped home with five lengths to spare. Mr. Bell-Irving brought Tiddleywinks into second place and Mr. Remedios was third with a length and a half ahead of his rival.

PRINCE'S INDIA VISIT.

GENERAL STRIKE AND BOYCOTT ADVOCATED.

EXTREMIST COMMITTEE'S AGITATION.

BOMBAY, October 9.  
The working committee of the National Congress and the Khilafat workers has passed a resolution advocating a general strike throughout India on the day of the arrival of the Prince of Wales at Bombay and urging provincial committees to arrange to boycott the occasion of the visits of the Prince of Wales to their respective cities. The committee expressed the opinion that the Congress should inform foreign states that the Government of India is nowise represented Indian opinion and that India is a self-governing state, fearing nothing from her neighbours, did not intend to establish trade relations undesirable to her. The committee declared that Indians regarded most of the treaties between their neighbours and the Imperial Government as mainly designed to perpetuate the exploitation of India. Therefore it urged states to refrain from entering such treaties. The committee in conclusion assured Muslim states that respect for their religious obligations would be the guiding factor in framing Indian foreign policy.

### PYRAMID OF SKULLS.

AMAZING CHARGES AGAINST NORTH BORNEO COMPANY.

DENOUNCED AS "A TISSUE OF LIES."

LONDON, October 9.  
Amazing allegations against the British North Borneo Company are made in the current issue of the *Country Magazine* by Major E. Alexander Powell who asserts that opium smoking and gambling are officially encouraged in order to swell the revenues. Imported labourers are in a form of servitude not far removed from slavery. Recalcitrant labourers are flogged and in the event of insurrection constabulary largely recruited from the savage tribes are permitted to decapitate the prisoners and pile the ghastly trophies in a pyramid in the principal plaza of the capital. Sir West Ridgeway, interviewed, declared that the allegations were a tissue of lies supposedly written by some one with a grudge against the company. He could not understand how they could be published in a magazine of such good standing. This was a very serious matter and must be dealt with properly.

### MANCHESTER ROYAL EXCHANGE.

KING AND QUEEN ENTHUSIASTICALLY WELCOMED.

LONDON, October 9.  
At Manchester 12,000 people enthusiastically greeted the King and Queen. In the assembly hall of the Royal Exchange, Sir Arthur Haworth read a loyal address in the course of which he mentioned that the exchange now covered 13 acres. It had a membership of 11,000 representing 2,000 firms operating 60,000,000 spindles and 600,000 looms with a capital of £300,000,000. The King, replying, said that it was his earnest hope that the ceremony would prove the starting point of a steady and ever-increasing development of the trades which centred in the Exchange and that this would promote cordial relations between the peoples united by commercial ties.

### PRICELESS OPPORTUNITY.

CHURCHES AND THE WASHINGTON CONFERENCE.

WASHINGTON, October 9.  
The Federal Council of Churches of Christ in America has sent a message to its 150,000 congregations here, including most of the Protestant denominations, urging all religious bodies to seize the priceless opportunity of the Washington Conference to cultivate Christian public opinion in favour of disarmament and demanding far-reaching reduction in naval and military armaments.

### FRENCH NAVAL MISSION.

PARIS, October 9.

The *Matin* understands that Vice-Admiral Dubon, former commander of the French fleet in the Levant, has been appointed chief of the naval mission which is to accompany M. Briand to Washington.

### BATHING FATALITY.

WARDER DROWNED AT REPULSE BAY.

A distressing bathing fatality occurred at Repulse Bay yesterday noon. The victim was Mr. Thomas Duckworth, a warden of the Victoria Jail. He was one of a party of five warders who went to the popular resort in a motor boat for a swim. None of his companions seemed to miss Duckworth while in the water, and it was after they had returned to the boat and were dressing that they realized one of their number was not on board. The party went out in a sampan to search for Duckworth, and found his body in about seven feet of water, some twenty yards from the shore. Dr. Harston who was at the hotel at the time rendered prompt assistance, but the deceased was beyond human aid. A popular member of the warden's mess, Duckworth's death has cast gloom over his colleagues. The funeral takes place at Happy Valley this evening.

### BLAZE AT KOWLOON.

MULES BURNED TO DEATH.

Matsheds at Gun Club Hill, Kowloon, in which mules belonging to the 30th Mule Corps were stabled, caught alight on Saturday afternoon and sixteen of the animals were burned to death. The fire began in a matshed wood store at the top of the hill and spreading fragments from the roof were carried by the wind on to the stables down at the bottom. A number of Europeans and several Indian soldiers courageously rescued nearly 50 animals who had naturally become terrified and unmanageable. Some of those that were removed from the burning building were so badly injured that they had to be destroyed afterwards.

The Kowloon Fire Brigade, supported by the Yaumati contingent came on the scene but their efforts were hampered by an altogether inadequate water pressure. All the matsheds except those used for the men's quarters, were demolished so that the damage done was considerable.

Notice is given that the red sectors of the north-east Shantung Promontory light have been discontinued. The light, which is group lighting, flashing, now shows two white flashes in quick succession every 15 seconds round the horizon where not obscured by land.

Sir William Rees Davies, K.C., and Lady Rees Davies returned to the Colony yesterday from Home by the P. & O. steamer "Karmala."

### SON'S MISDOINGS.

FATHER MUST FORFEIT \$200 BOND.

The Chinese boy who was last week remanded by Magistrate Lindsell on a charge of having obtained a gold mounted rattan bangle and a gold ring from a small girl in Mongkok was again before the Court this morning.

The case was remanded because the boy had strenuously denied a previous conviction in May. The police were required to make further investigations, and to secure the presence of the boy's father who was said to have signed a bond in the sum of \$200, guaranteeing his son's good behaviour for twelve months.

This morning Inspector McNab Wilson, of Kowloon City police station, appeared to identify the accused.

Inspector Aris said that the boy's father was at present in the country and could not be found.

Replying to the Magistrate, the boy admitted the previous conviction. "I remember now," he said.

Asked why he did not remember it earlier the boy merely smiled.

The Magistrate: You have not only got yourself into trouble but your father as well. He signed a bond of \$100 or \$200 guaranteeing your good behaviour, and you have let him down.

Accused: I was told by my "professor" (the fitter) to do it. I had been looking for a job for a long time but was not successful. I agreed to do it to please him.

The Magistrate: Nonsense. You are a little rascal yourself. Six months.

Inspector Aris was instructed to produce the boy's father as soon as he returned from the country. The bond must be enforced or it would be useless.

The Inspector: He knows nothing about this affair. The accused committed the offence during his absence.

The Magistrate replied that that made no difference. If the father chose to sign a bond guaranteeing his son, he was responsible for his good behaviour.

### 1923 EXHIBITION.

GIGANTIC SCHEME FOR EMPIRE SHOW.

It will be for 1923 what the Great Exhibition was for 1851. Such is claimed for the British Empire Exhibition to be held at Wembley from April to October of that year.

One of the most important aims of the vast undertaking is to show how the numerous undeveloped resources of the Empire can be converted into wealth, of which grain, wool, sugar, timber, fruit, cotton, metals, and fishing are perhaps the most noteworthy.

Just now the main energies of the Executive Committee are being devoted to the securing of the necessary guarantee. The Government are to provide £100,000, contingent upon £50,000 being forthcoming from other sources. Up to the present, rather more than one-half of that amount has been secured.

### NEW EXHIBITION CENTRE.

The exhibition will be held at Wembley Park, which was considered to be the most suitable site, particularly from the point of view of accessibility. Its 120 acres will include a National Sports ground, around which quite 125,000 people may be accommodated. And everybody will be able to see.

The Football Association have arranged to hold the Cup Final there in 1923, in addition to other matches under their control. A circular running track will surround the field of play, and the arrangements generally for the holding of athletic meetings will be completed in consultation with the Amateur Athletic Association. It is hoped that it will be possible to convert the lake on the site into a swimming and diving pool and for the giving of some form of aquatic display.

### ROYAL PATRONAGE.

Whilst the exhibition is under the patronage of the King, the Prince of Wales is president of the general committee, and the vice-presidents include the Agents-General and High Commissioners for the Overseas Dominions and India. Many men well-known in the banking, industrial, and commercial world are on the Executive Council.

The fishing section of the exhibition will be made particularly attractive. Different types of vessels and kinds of gear used in deep-sea fishing will be shown, as well as the methods of fishing in inland waters. There will also be exhibits illustrating the processes of pickling, kippering, and the smoking of herrings, sprats, pilchards, and other denizens of the

### FOOTBALL.

"CAIRO" v. SOUTH CHINA.

In view of the near approach of the football season, many Clubs are already in serious practice. On the form exhibited, a fine season is anticipated.

On Saturday afternoon, the "Cairo" played a friendly game against a South China team on the Dockyard ground. A strenuous struggle resulted in a draw of 4 goals all.

The Sailors pressed at the opening whistle, and were soon in the danger zone. The Chinese custodian was severely tested, but survived the attack in a convincing style. Soon play was transferred and the Chinese had some shots at goal, but could not find the net.

Hindley broke away for the Sailors, and running strongly down the left wing, swerved in and scored with a cross shot. This did not dampen the spirit of the Chinese, who went away from the centre. Ip Kau and Man Kit sent in fine shots, and for a time the Sailors' goal seemed in danger, but Hindley again saved the situation and with a fine burst of speed, was once more tearing down the field towards the goal. He was pulled up by Cheung Wing Shing.

Immediately afterwards, Leung Wing Tak equalised for the Chinese with a shot to the corner of the net. The Chinese continued to press, but they were kept out of the danger zone.

"Cairo" had the advantage of the closing few minutes of the first half, and Matthews and Hopington scored. At half time the Sailors led by three goals to one.

The Chinese showed a great burst of speed at the resumption, and for a time ran the Sailors off their legs, but Bishop was a safe goal and stopped many apparently impossible shots. A ding dog struggle followed with both goals being visited in quick succession.

In one of these melees in front of the Sailors' goal, Cheung Wing Yung reduced the score to 3-2.

The Sailors retaliated but were pulled up for hands against Stevenson. The Chinese returned and Leung Wing Tak kicked behind. Hindley broke away from the kick-in and scored the Sailors' fourth goal.

After this, the Chinese got the monopoly of play and Ip Kau soon made the score 4-3. They attacked determinedly after this and towards the end of the match were rewarded for their pains. Leung Wing Tak sending in a twisting shot which just eluded the goalie's fingers.

A well contested match resulted in a draw of 4 goals all.

TO-DAY'S CHINESE HOLIDAY.

### HONGKONG OBSERVANCES.

Displays of bunting in which the Chinese five-barred flag was everywhere predominant and a schoolboys' procession through the streets were the chief outward signs that to-day the inauguration of the Chinese Republic was celebrated in Hongkong.

Most European firms and Government Offices closed down for the day but it was noticeable that it was by no means kept as a general holiday amongst the Chinese themselves. While Sincere's, the Sun Company and the other big emporiums, were shut, a good many of the smaller shops carried on as usual.

The procession in which some hundreds of boys from the vernacular schools took part was a characteristically noisy one.

Wearing miniature flags in their buttonholes or waving larger ones in their hands the youngsters skipped along to the accompaniment of the inspiring airs furnished by a couple of juvenile bands. The efforts of the latter were helped out now and again by the processions with a series of terrifying vocal outbursts which were something between a college "yell" and a Maori war cry.

Celebrations of a more "private" nature were indicated by the songs which changed incessantly in the Chinese quarters throughout the day.

WASHINGTON CONFERENCE.

WASHINGTO, October 8th.

Gratification is expressed in the State Department at the announcement that the British delegation to the Washington Conference includes Dominion representatives.

Surprise is expressed at Mr. Hughes' statement that the United States "shame the door in our faces" (cashed on October 7th) as the State Department declared that no communications were exchanged on the subject of the Conference between the Government of the British Dominions and the United States as they might have been resented by the British Foreign Office as a violation of diplomatic usage. The inclusion of Australian representatives in the British delegation has not occasioned any surprise in the State Department.

LONDON, October 7th.

There is considerable speculation in regard to the British representatives at the Washington Conference. Mr. Balfour is mentioned as the leader. Up to the present he has not accepted the invitation, but there is every possibility that he will do so. Lord Lee is regarded as certain to be a delegate. Mr. Winston Churchill and Sir Worthington Evans are also mentioned, but it is more likely that the former will be at the Irish Conference.

MACAO CONTROVERSY.

LONDON, October 8th.

The Lisbon newspapers assert that the controversy with China over jurisdiction in Macao waters is assuming gravity, and the Portuguese Government is sending troops and two cruisers. The Minister of Commerce, however, has declared that the matter will be settled diplomatically.

A FLYING BOAT.

NEW YORK, October 8th.

SILENT ARAB WATCHER.

PALE GOLD ROBES IN A LONDON STREET.

Those who have passed the Great Eastern Hotel, Liverpool-street, E.C., during the last few days noticed outside a remarkable man garbed in richly embroidered robes of pale gold and wearing bright blue stockings and yellow sandals. The man, an Arab, with a long white beard and hooded like Father Christmas, stood motionless for several hours.

He bore himself with a proudly aloof air. He often held an English newspaper in his hand, but he declined to talk. To every polite inquiry about his identity he answered gravely and softly, "Arab."

## UNITED ATHLETIC CLUB MEETING.

The first annual aquatic sports meeting of the United Athletic Club was successfully held in the V.R.C. bath on Saturday afternoon. Attendance suffered a little owing to the counter-attractions at the C.R.C., and the gymkhana, but those present had an enjoyable time. Keen competition was the order of the meet and some very exciting finishes were witnessed. The Blue Jazz Band added considerably to the afternoon's enjoyment with a fine programme of music. A break of twenty minutes was made in the programme for tea which was served in the spacious hall of the V.R.C.

The principal events were the 100 yards Championship, team race and long plunge, all of which caused much excitement. The Championship was won in grand style by D. Laing, who thus gained the distinction of being the first holder of the A. H. Carroll cup which must be won three years in succession before becoming the property of the winner. Laing was presented with a miniature of the cup to keep. The team race was between two well matched teams captained by A. Botelho and D. Laing, respectively. Although they lost good ground with the first pair, Botelho's team won a fine race by a touch. The long plunge was won by L. R. Duncan (56ft); F. Schenepel was second (53ft. 8ins). A Water Polo match U.A.C. v. United Services, was closely contested, the United won by 3 goals to 2. Buschaert won in grand style the event open to members of the V.R.C.

At the conclusion, Mr. A. H. Carroll, Chairman of the Club addressed the gathering. He spoke of the success of the meet in spite of counter-attractions. He said that when the question of an aquatic sports meeting was mooted, many there were who promptly threw cold water on the project, but the committee stuck to their idea, and now they had every reason to congratulate themselves. Mr. Carroll thanked Mr. Witchell for the help he had given, without which the meeting could not have been so successful; the prize donors and subscribers for their support; and the V.R.C. for the loan of the bath.

Mrs. W. J. Carroll then distributed the prizes, and was afterwards presented with a beautiful bouquet in a silver vase by Miss Connie Smith.

## RESULTS.

The following were the results of the contests:—

Four Lengths Handicap.—First prize by Mr. W. J. Carroll; 1. J. Kent; 2. K. Mason.

## LAWN TENNIS.

## INTERESTING GAMES AT C.R.C.

The close of the Hongkong Lawn Tennis League was marked by a tournament at the Chinese Recreation Club, Causeway Bay, on Saturday, when the home team, Champions of the league, played a series of games against the "Rest" of the league. Excellent tennis was witnessed by a large gathering. The Champions won by 60 games to 39. This is the second year in succession in which the C.R.C. have won the shield, and they are to be congratulated on their success, in view of the formidable combinations they had to tackle this season.

Afterwards the Championship trophies were distributed by Miss Julie Wang. This ceremony was followed by a tea-dance.

## FOOTBALL.

## "AMBROSE" V. KOWLOON.

The "Ambrose" met Kowloon in a friendly game on Navy "A" ground on Saturday and succeeded in defeating them to the tune of 8-0.

The game was a very one-sided affair in the first half, Kowloon only having ten men on the field. Consequently "Ambrose" succeeded in penetrating their defence five times, without difficulty.

In the second half Kowloon managed to field 11 men and although they played pluckily it was evident that "Ambrose" was the superior team.

## GO. DEN RULE.

## MR. ROCKEFELLER'S VIEW OF WORLD PROBLEMS.

In the course of an address before various religious and social organizations in Shanghai, Mr. J. D. Rockefeller, Jr. observed:

"As I see the teeming population of China, the limited educational opportunities, the lack of sanitation and modern medical skill, the struggle for subsistence, the superstition which still holds many in its grasp, I realize something of China's needs, of the great opportunities which lie before you Christian workers and laymen, and of the difficulties that confront you. And as I see the responsiveness of the Chinese people, how quick they are to learn when shown the way, how skillful with their hands, how patient, uncomplaining and hardworking, and the splendid well-equipped native leaders who are coming forward in the various spheres of life in ever increasing numbers, I am full of hope for this great nation."

## FORCE PLAYED OUT.

Many and difficult of solution are the problems which are pressing on civilization. There was a time when it was thought that in force was to be found the solution of these problems, but the outcome of the great war in Europe has demonstrated—God grant for ever—that force will never be permitted to rule the world.

Individualism has superseded force as a possible solution of world problems. It has been tried in Europe and in America, as well as in other countries. But individualism is selfishness, it does not promote goodwill; it does not bring contentment or happiness. Surely individualism is not the panacea for which the world is looking.

And now, of late, leaders in the West have been advocating the adoption of the golden rule. "Do as you would be done by," as the solution of the problems of civilization. This is not a new principle; over 2,000 years ago it was enunciated by Christ, the humble carpenter of Nazareth, but in all the intervening centuries it has not been given a fair test. Never has there been so great a need as to-day for the adoption of this principle and for a return to the simple life and teaching of the Nazarene Carpenter.

RELIGIOUS CO-OPERATION IN CHINA.

In emphasizing the importance of co-operation in religious work, Mr. Rockefeller mentioned that since coming to China he had received a letter from a Chinese pastor in the interior telling of his work and of the money which he needed, as he said, "to teach his people Presbyterianism." It was not the "ism" of the Presbyterian Church, the Baptist Church, the Congregational Church, or of any church that the people of China or any country were interested in, but rather the great fundamental eternal truths of religion. It was rather a source of the utmost satisfaction to him to note the co-operative spirit which existed in the religious enterprises of China.

MURDER OF MILLIONAIRE.  
ASSASSIN CARRIES DECLARATION  
OF HIS REASONS FOR  
THE ATTACK.

Tokyo, Sept. 30.—The violent  
death of Mr. Zenjiro Yasuda, a well  
known millionaire in Japan, is being  
much commented upon economically  
and socially. Heigo Asahi, the assassin,  
was a man noted as a blackmail-  
man. Judging by the fact that he  
had in his pocket a declaration  
of reasons for assassination as well as  
a testament, the murder of Mr. Yasuda  
has been found to be premeditated.  
As the declaration has not yet been  
made public the motive of the assassin  
is not ascertained. It is generally  
believed, however, that the cause of  
the assassination is attributed to the  
fact that the victim's method of  
money-making was too selfish and  
that the assassin harboured great anti-  
pathy against men of wealth in  
general. There are some newspapers  
here, which emphatically call for the  
grave reflection on the part of the  
wealthy classes and which, while  
recognizing the good services the late  
Mr. Yasuda has done towards the  
financial world in Japan apparently  
grudge much sympathy towards his  
violent death.
